OUR STORY

We had a dream: to stand alongside the world's best athletes on their journey to success. Premium technologies, international certification, and the quality of our products confirmed by independent laboratories have always been our priority. Olympic winners, world champions, and top experts in their fields have been writing history with us for more than 30 years. Just like the emotions seen on the faces of millions of you, pushing your limits every day around the globe.

Your stories are what drive us forward.

ABOUT US

We are the Czech manufacturer of sports nutrition, providing top-quality products with decades of experience in the industry. Thanks to our own laboratories and development center, we have full control over the entire production process. From manufacturing using high-quality branded ingredients and designing our products to managing logistics and storage, we oversee every step of the process to ensure the highest standards in everything

we offer. All under one roof. Thanks to our commitment and strict internal processes, we have achieved internationally respected IFS Food certification. Since 2011, we possess our own exceptionally high-quality water source, drawn from a 170-meter-deep artesian well in the foothills of the Nízký Jeseník mountains. On the market, this spring water is known under the NARTES brand.

In 2018, we opened NUTREND WORLD, a complex with a unique design that combines fitness centre, wellness, luxury hotel, and a restaurant with a stylish café. In the beginning of 2020, we finished construction of another production hall and warehouse with area over 11 000 m² that helps us implement the latest production technologies and increase capacity.

TECHNOLOGIES

Our production halls rank among the most comprehensive facilities of their kind in Europe. Thanks to investments in the latest technologies, we are able to ensure production processes for a wide portfolio of products—all under one roof.

- production of bars
- production of liquids
- production of gels
- production of powders
- production of capsules and tabs

Our warehouse, with a capacity of over 5,000 pallets, is equipped with storage systems, ensuring optimal organization and efficiency. Whether for short-term storage or long-term warehousing, our space is designed to accommodate a wide range of products or raw materials.

RESEARCH AND DEVELOPMENT

Thanks to all in-house solution we offer great flexibility in product development, allowing us to create tailored solutions for fitness lovers, active-lifestyle enthusiasts, and our business partners worldwide. Our development team includes nutritionists, sports medicine experts, and leading athletes from various disciplines, ensuring that our products meet high expectations and real-world needs. The high quality and conformity of our products are tested in independent laboratories in the Czech Republic, ensuring compliance with the strict regulations of European authorities. Our products undergo rigorous testing and are subject to continuous oversight to meet the highest industry standards

QUALITY

NUTREND has been awarded the prestigious **IFS Food Certificate**. Achieving this certificate demonstrates that our processes and products consistently meet internationally recognized requirements, ensuring that customers and partners can rely on our dedication to delivering safe and high-quality products.

Our company has also established a quantity verification system to ensure full compliance with all regulatory requirements. As a result, we are authorized to apply the “e” **symbol** to our bar production.

The company has developed an internal policy for waste sorting and carefully monitors its compliance. It is also a part of the Czech **EKO-KOM** Collective Compliance System, fulfilling its obligations under the Packaging Act. NUTREND is further committed to sourcing suppliers who provide easily recyclable packaging materials.

NUTREND STORES

We have been continuously building a network of our own branded stores that keeps spreading every year. NUTREND stores with their modern design fit within the concept and style of the whole company. Premium products and expert consultancy are the alpha and omega of our branded stores that you can find in every bigger city all over the Czech Republic.
